

Random curve :

A line graph on a coordinate plane. The x-axis is labeled from -10 to 10 with major tick marks every 2 units. The y-axis is labeled from -10 to 10 with major tick marks every 2 units. A smooth curve is plotted, starting at approximately (-10, 10), decreasing to a local minimum at approximately (-2, -2), increasing to a local maximum at approximately (4, 4), and then decreasing to approximately (10, 0).
