Random curve 1

The graph shows a significant upward trend in the number of people with a university degree from 1980 to 2000. The number starts at approximately 1.5 million in 1980 and rises sharply to about 4.5 million by 2000. After 2000, there is a slight downward trend, with the number reaching approximately 4.2 million by 2010.
