A scatter plot showing the relationship between 'Approx average distance' (x-axis) and 'Approx frequency' (y-axis) for 33 datasets. The x-axis is on a logarithmic scale ranging from approximately 5e-6 to 6e-5. The y-axis is on a logarithmic scale with a major tick at 10. Each dataset is represented by a colored circle with a number label. The datasets are distributed across the plot, with some showing high frequency at low distance (e.g., dataset 5) and others showing low frequency at high distance (e.g., dataset 1).
